

Brad Smid, P.Eng.

Brad Smid is a graduate in Civil Engineering from the University of Alberta. Brad began his engineering career in the private sector and was involved in heavy civil construction and railroad engineering, prior to joining the Transportation Department of the City of Edmonton in 2002. Brad is a Program Manager in the LRT Design and Construction Branch, where he has been involved in the planning, design, and construction of Edmonton's South LRT and North LRT extensions since 2005.

Brad is a strong believer in continuing professional development and community involvement. In addition to his work responsibilities, Brad is the Western Region Vice President of the Canadian Society for Civil Engineering (CSCE), Past Chair of the Association of Professional Engineers, Geologist, and Geophysicists of Alberta (APEGGA) Edmonton Branch Committee, and a Scout Leader.

Brad and his wife, Jennifer, have three young children.
