

Calgary Branch AGM

Date: Thursday, January 19, 2012
Speaker: Don Wishart, BSc, MSc
TransCanada International

Location: Westin Hotel
Topic: Infrastructure Development Challenges in
North America

The International Energy Agency estimates a \$6.1 trillion North American energy supply infrastructure investment requirement over 2010 - 2035. However, energy sector infrastructure development has slowed or stalled, and was rated D+ in the ASCE Report Card on American Infrastructure. Key development issues include public concerns and fears, inefficient regulatory processes, legal challenges, and shortages of qualified engineering professionals.
