April 22, 2006

APEGGA Summit Awards® Recognize Engineering and Geoscience Excellence

Edmonton - Over 1,100 guests attended the 2006 Summit Awards® Gala, Friday, April 21 at the Shaw Conference Centre in Edmonton. The event, hosted by The Association of Professional Engineers, Geologists and Geophysicists of Alberta (APEGGA), acknowledges outstanding individuals and corporate members for their accomplishments in engineering, geology and geophysics.

Now in its 16th year, the Summit Awards® recognize excellence across a broad range of engineering, geological and geophysical endeavours and salute the efforts of these professionals as they work to ensure public safety and well-being. Summit Award® recipients are leaders who have a significant positive impact upon Alberta.

Ten awards were presented this year celebrating superior leadership, early accomplishment, environmental excellence, technical and educational achievement, professional and community service, project innovation and distinguished service to the association.

Established in 1920, APEGGA is responsible for regulating the practices of engineering, geology and geophysics in the province of Alberta. The association's 44,000 members play a significant role in every segment of the economy, and their technical and management expertise ensure Alberta remains at the forefront of technological innovation.
